

	CartesioM11 DIY	CartesioW11 DIY	CartesioM11CE	CartesioW11CE
<b>Electrical specs</b>				
Power	120/240V 250W	120/240V 360W	120/240V 260W	120/240V 370W
User Interface	Full graphic display with dial knob			
File Interface	Normal SD card, USB, WIFI(option), Ethernet(option)			
<b>Mechanical specs.</b>				
LxWxH	510x530x610mm	710x530x610mm	510x530x610mm	710x530x610mm
Build volume LxWxH	210x210x200mm	410x210x200mm	210x210x200mm	410x210x200mm
Weight	21Kg	27Kg	23Kg	29Kg
enclosure material	Red/Black anodized aluminum (with optional client specific design)			
Tools	4 extruders or other electrical tools (1 FFF extruder included)			
Heated build platform	100 degrees Celsius (optional 150 degrees Celsius)			
X/Y Feedrate and resolution	24.000 mm/min, 7micron			
Z Feedrate and resolution	1200 mm/min, 1.5micron			
Print speed and resolution	Filament 1.75mm Nozzle 0.4mm : 200mm/sec , 100micron			
<b>Materials</b>				
Filament	1.75mm universal filament			
Max. nozzle temperature	350 degrees Celsius			
Hard plastics	XT, PLA, ABS, PP, PC, bioFilla			
Flexible plastics	Arnitel ECO, Ninjaflex, Filaflex, flex-PLA			
<b>Software</b>				
OS	Linux, Mac, Windows			
Firmware	Marlin for Cartesio (open source)			
Slicing	all open source slicing packages and other			
Host	all open source host packages and other			
<b>Safety</b>				
CE certification	none		2006/42/CE	
Fumes extraction	none		Active exhaust ventilation	
Enclosure	Back enclosure		fully enclosed	
<b>Additional</b>				
Support	E-mail, phone, Community, FAQs, tutorials, manuals			
Warranty	2 Years warranty			
What's in the box	Cartesio 3D machine, power cord, USB cord, SD card, 3Dlac			
<b>End user Price</b>	€2300,-	€2700,-	€3300,-	€3700,-

Free worldwide shipping on complete systems
